Justification for Proposed Budget Enhancement (2025-26)

The proposed student activities budget for the academic year 2025-26 is a strategic response to increased student participation, expanded club portfolios, and increasing equipment needs. The following points outline the rationale:

1. Student Strength and Engagement

- Student enrolment has grown from 196 (2022-23) to 220 (2024-25), with a projected 218 in 2025-26.
- Participation in cultural, academic, and club-based activities has risen proportionally, necessitating scaled-up support for logistics and materials.

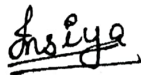

2. Restoration and Expansion of Events

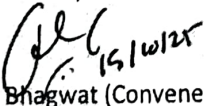

- The budget dip in 2024-25 was due to the absence of IICM, not a decline in student activity.
- For 2025-26, IICM (title changed to IINCICM this year) and IISM are scheduled in Bangalore and Bhubaneswar, respectively. Though externally hosted, substantial student participation requires institutional support for registration, travel, preparation, and coordination.

3. New Clubs and Equipment Requirements

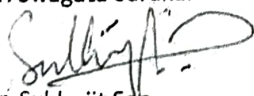

- E-Game and Cinematography Clubs, introduced in 2024-25, have shown strong engagement and require sustained operational support.
- Equipment upgrades are essential to reduce rentals, enhance quality, and build student capability:
- Music, Dance, Cinematography: microphones, mixers, monitors, wireless mics, lighting rigs, camera, editing tools, and storage.
- Science and Art Clubs: consumables, safety materials, travel allowances and honorarium to speakers.

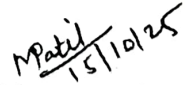

This budget proposal ensures inclusive, high-impact student engagement and aligns with the evolving academic and extracurricular activities.

INTER IISER NISER CEBS IISc CULTURAL MEET (IINCICM)

The Inter-IISER NISER CEBS IISc Cultural Meet (IINCICM) is a **national-level cultural and literary fest** bringing together students from all IISERs, NISER, IISc, and CEBS. Hosted by a different institute each year, the event aims to provide a high-quality cultural experience. CEBS first participated in 2019 and has competed every year since 2022. Despite typically having a smaller contingent, our students have consistently won in many competitions. The meet is usually held in the third or fourth week of December.

For administrative **convenience**, the IINCICM budget is managed under the CEBS Cultural Club, which allocates funds to various sub-clubs for their respective events in IINCICM. ANNUAL BUDGET OF THE SPORTS CLUB

The Sports Club functions as the primary body responsible for coordinating and overseeing all sports-related activities of the institute. The club undertakes the planning and management of resources required for practice sessions, tournaments, and representation of CEBS at major events such as the IISM. With the steady increase in student strength, the Sports Club plays a crucial role in ensuring adequate infrastructure, equipment, and support systems to meet the growing demand for diverse sporting activities.

The sports club organizes two major events in a year which are:

1. Inter IISER Sports Meet (IISM)
2. Ragnarok (Annual Sports Event of CEBS)

INTER-IISER SPORTS MEET (IISM)

The Inter IISER Sports Meet (IISM) is open to participants from NISER, CEBS and IISc. The level of participation of students from CEBS in this event has been progressively increasing, commensurate with the growth in student strength in the forthcoming batch.

The 2025 edition of IISM is scheduled to be hosted by NISER Bhubaneswar in mid- December and an estimated contingent of approximately 60 students from CEBS is expected to take part. In accordance with the requirements of participation, students will be provided with printed jerseys and sports equipment.

IISM 2024 was hosted by IISER Pune. During the course of practice sessions, a substantial portion of the available sports equipment was extensively utilized, resulting in wear and deterioration of certain items. Accordingly, provision is to be made both for the procurement of new equipment and for the repair and maintenance of existing resources.

RAGNAROK (ANNUAL SPORTS EVENT)

Ragnarök is an inter-batch sports meet organized in the even semester in which various sports events are organized to boost the spirit of sportsmanship among students and to give them a fresh start to the semester. This event also serves as a prelude to IISM.

For reference, the updated inventory of existing sports equipment has been attached along with this budget in **Annexure – VIII**

In view of the increasing student strength and with the objective of enhancing participation in a wider range of competitions, budgetary estimates for IISM and Ragnarök have been prepared for the Academic Year 2025–2026 and is as follows:

Specifications	Estimated Price

The proposal for procuring new sports equipment is driven by the inadequacy and deterioration of the existing inventory maintained over the past year. A recent review conducted jointly by wardens and student representatives highlighted the following concerns:

- **Inadequate Quantity:** The current stock of essential sports items is insufficient to accommodate the increasing participation of students from various academic programs.
- **Damaged and Unusable Equipment:** A significant portion of the equipment, such as footballs, badminton racquets, and table tennis kits, has been rendered unfit for safe or effective use due to wear and tear.

- **Requirement for Upgrades:** Many of the existing items do not meet current standards of durability and performance, necessitating the procurement of quality replacements.

Given these observations, the procurement of new sports equipment is essential to ensure the safety of participants, encourage wider involvement in physical activities, and uphold the institute's commitment to student welfare and holistic development.
