

SCIENCE CLUB AND MATH CLUB

SCIENCE CLUB:

Events of the Science Club are Rendezvous and Open Mic whose details are as given below:

Rendezvous: An invited speaker addresses the audience over a general topic (~1 hour) to direct a discussion afterwards. The post-session discussions often take over the blackboard, and never fail to provide a new perspective to look at the concepts involved. There are 6-8 Rendezvous sessions which will be held in the evenings.

Open Mic: The session brings together multiple speakers to deliver short, 3-minute talks. The students can also show scientific models/ perform experiments and demonstrations to express their ideas. It provides a common stage to both student and faculty members to interact over a variety of topics in one evening over refreshments. There are 6 Open Mic sessions during the year.

Apart from these, Science Club organizes informal science talks called '**Random Talks**' where students join and discuss different scientific topics.

MATH CLUB (LINDELÖF MATH SOCIETY):

Math Club is a new club of CEBS, focused on events, talks, workshops, discussion and a space for opportunities in Mathematics at CEBS.

Distinguished mathematicians are invited as speakers for **talks (online and offline)**. Talks, competitions (**Integration Bee, Hackathon**) and **workshops** also take place within the student community at CEBS.

The Science Club inventory is provided in Annexure 1.

As of yet, there is no inventory available for the Math Club.

The proposed combined budget for the Science and Math Clubs is as follows:

SPECIFICATION	EVENTS	BUDGET (INR)
Posters and Prints	Talks, workshops, competitions	4,000
Travel for speakers	Talks	40,000
Stationery	General use	5,000
Snacks	All events	8,000
Gifts and medals	Competitions and gift for speakers	7,000
Equipments (mic, tripod)	Talks	5,000
Misc.		5,000
Total		74,000

Notes and Remarks:

- Posters and prints are for promoting the talks, competitions and workshops of the clubs.
- Travel expenditure is required to bring the professors and speakers to campus for the talks.
- Stationery is required for general use (chalks, papers et.c, workshops) as well as for making a new “CBSpx” signboard to replace the old one.
- Snacks are to be provided at talks, workshops and other events.
- Gifts and medals include prizes for competition winners, as well as gifts for speakers.
- Equipment expenditure includes purchasing of a new mic, required for hosting the talks.
